## FEATURE

### ■ Mature components ensuring reliability

The EPT20-15ET2H inherits the design philosophy of EP's iconic model, EPT20-15ET2, along with market-proven components, AGM battery and standard integrated charger, which convince users of its good quality and reliability.

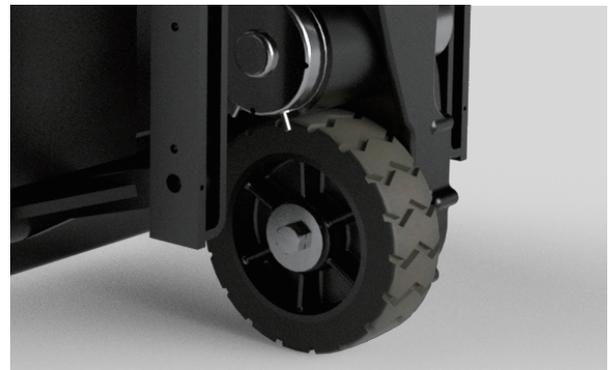

### ■ Waterproof and dust-proof design for rough environments

The EPT20-15ET2H adopts the fully closed connectors and gearbox, protecting the truck from water or dust ingress. This makes it a workhorse even in muddy and wet scenarios.

### ■ Optimized drive wheel to cope with heavy duties and continuous use

To cope with heavy duties, EP optimizes the drive wheel and it's easy to swap in case of wear sustained from continuous use. Operators benefit from the truck in terms of durability and easy maintenance.

### ■ Higher ground clearance available for outdoor usage

The EPT20-15ET2H offers 105mm nylon load wheels or 80mm PU load wheels as options and it comes with high ground clearance, to accommodate transportation tasks on construction sites and cold storage.
